

## Tax Service

Opidal Tax Services is committed to empowering our clients. That is the reason we have provided our customers the tools to help manage their tax filing. Our clients are welcome to use our tax estimator to find out how much refunds to expect. We have also provided e-file tool for those who prefer to prepare their tax returns themselves. The e-file button is the yellow button located at the top of this page just below the black menu bar. Although we provide the tool for our clients who prefer to prepare their own tax returns, we are still committed to our other clients who still require our assistance in preparing their tax returns. Our professional staff would not only file your returns, we would ensure that we claim all the deductions and credits you're entitled to.
